2023

Highlights. Made in Germany.

markilux Product Innovations 2023.

markilux MX-4

The interplay of attractive awning design and sophisticated LED technology

Make way for the new cassette awning markilux MX-4. Created to shade large areas, its avant-garde design and all-round styling panel are compelling. Product design – both functional and attractive. With the innovative lighting options and the additional wall lights, it shines brightly in the evening and creates spectacular and enchanting lighting effects. Raising the curtain on a great composition.

- Max. 700 × 350 cm / 600 × 400 cm
- An all but invisible, flush fit against the wall of the building
- Attractive, functionally orientated design with all-encompassing front panel
- Cassette and front panel are available in the standard markilux colours which can be chosen and combined at will
- Various lighting options with integrated LED Spots and LED Line
- External wall lights coordinated with the awning in both design and colour
- Available with coloured LED technology

1 A cracking composition with an excellent ensemble.

The markilux MX-4 with its fully enclosed cassette and surrounding front panel is aesthetically appealing and attractively shaped.

Developed to shade large areas, the markilux MX-4 only reveals its convincing capabilities in full when the cover has been entirely extended.

markilux MX-4

LED Line in the cassette
Accentuates the design of the awning and creates a fascinating atmosphere.

LED Spots in the front profile*
Showcase designated areas selectively and charmingly.

Magical trio. Light. Form. Function.

markilux MX-4 wall lights

In good shape – and perfectly coordinated with the awning design.

Always putting al fresco living in the right light

Pioneering design coupled with optimum functionality and modern lighting technology leave no desire unfulfilled.

A further highlight – in the truest sense of the word – are the new markilux MX-4 wall lights. Matched to the design language of the awning, they fit perfectly into the design image and demonstrate Al Fresco Living of a special kind.

The new markilux MX-4 designer awning in combination with the new markilux MX-4 wall lights and further lighting options illuminate every outdoor area, completely individually and, if so desired, with coloured light. The way to create sensational lighting scenarios depending on occasion and mood.

Gives light and more.

Coloured lighting for a perfect ambience

markilux designer awnings that create a glowing atmosphere. With the new markilux MX-4, things are becoming even more spectacular and versatile. This makes it possible to create a very individual lighting atmosphere depending on the occasion and mood. All colours are easily and infinitely adjustable – for example by using either the Philips Hue or Somfy TaHoma apps – and allow the outdoor area to feature sometimes colourful, sometimes warm and sometimes really “cool” lighting effects.

Whatever the colour: light is effective and creates a spectacular ambience.

markilux MX-4

2

Brilliantly
coordinated
and perfectly
“covered”.

markilux MX-2 colour: colour underlines design, individuality and personality.

To be honest: an eye-catcher even when closed.

Perfectly “covered”: markilux cover fabric recommendations for a stylish appearance.

markilux MX-2 colour

The successful model markilux MX-2 in a new variant

The tried-and-tested cassette awning markilux MX-2 with its sophisticated and finely coordinated design will be showing its colourful side in the future. With a total of ten fashionably modern colour combinations, it is the ideal solar protection solution to make individuality and personality visible and tangible in harmony with the architecture of the building.

- ⊕ Minimalistic, organic and harmonious design concept
- ⊕ The two-tone full cassette accentuates the excellent design of the markilux MX-2
- ⊕ Ten fashionably modern, predefined colour combinations
- ⊕ Any cover fabric can be chosen from the markilux awning fabric collection: collection one

10

markilux MX-2 colour

The essence of flowing design and perfect solar protection technology, perfectly coordinated with the colour scheme of the architecture and patio.

3

One collection.
Endless ideas.

collection one

markilux collection one
More than 200 high-quality cover patterns in one collection.

markilux collection one

The new markilux cover fabric collection

The development and creation of the new collection of outstanding awning cover fabrics was strongly orientated towards the needs of customers as well as future trends in interior design, fashion, architecture and landscape gardening. The result: a wonderful collection of awning fabrics with more than 200 high-quality patterns, divided into three categories.

The new collection can be seen, felt and experienced in your markilux specialist dealer's showrooms. For a first visual impression of the new designs and qualities, take a look at the cover finder at [markilux.com](https://www.markilux.com)

collection one – One collection. Endless ideas.

visutex

Category markilux visutex

Innovative fabrics allow you to conjure up your own personal awning heaven in the tried and tested qualities sunsilk and sunvas – available exclusively from markilux

SUNcolours

Category markilux suncolours

Select your own favourite pattern from seven contrasting colour families, in the qualities sunsilk, sunvas or sunbow.

collection one – Incredible. But true.

Category markilux specials

Semi-transparent, heat-reflecting, air-permeable, highly water-resistant and flame-retardant awning fabrics for special applications.

sunsilk fabric quality

Brilliant luminescence. Silky smooth surface. Awning covers in sunsilk impress with their unique luminosity.

sunvas fabric quality

Softly glowing. Textile-like to the touch. sunvas awning fabrics score with their textile character and natural appearance.

sunbow fabric quality

Impressive effect. Tangible texture. sunbow awning fabrics are characterised by their unique patterns in classic colours.

4

Getting out.
Coming home.

markilux pergola cubic

An attractive example of relaxed and functional outdoor living. Reduced, cubic shape in impressive dimensions. Ideal for shading large areas. Open to the sky – but wonderfully protected. A "new" guest room outdoors.

Al fresco living with markilux.

Since 1972 markilux designer awnings have stood for excellent design and top-quality, functional solar protection. markilux was and is a pioneer in this field and regularly excels with innovative ideas and products. We listen very carefully to what the market, trend research and our customers tell us. And that is how we discovered the topic of al fresco living for ourselves at a very early stage.

Patios, open-air seating areas and balconies become new living spaces and are furnished in a correspondingly sophisticated and homely way. To achieve this, functional and safe shading, light and warmth as well as the simple control of all component parts are playing an increasingly important role.

markilux designer awnings fulfil the desire for a more sophisticated outdoor living lifestyle, even late into the evening. markilux makes an Al Fresco Lifestyle a reality.

Create the most alluring shade in the world.
